For Use with the following ACT iCHARGE™ Chargers

Model i10

Model i15

Features:

- Tri-chemistry (NiCD, NiMH, Lithium)
- Provides fastest conditioning charge available
- Extends battery service life and cycle life
- Microprocessor controlled with real-time intelligent charging to meet the unique needs of each battery (patented DEW™ Technology)
- Simplicity of use, with no complicated charging rules
- Precise termination at full charge, unlike other chargers that charge to 80% and then revert to trickle charging.
- User-friendly interface, Green light = Battery Ready

Model i65

Model i60
